

Welcome

Welcome to the Bureau of Land Management's CD for the **Record of Decision for the Vegetation Treatments Using Aminopyralid, Fluroxypyr, and Rimsulfuron on Bureau of Land Management Lands in 17 Western States Programmatic Environmental Impact Statement**. The CD contains the Record of Decision presenting the BLM's decision to approve the Proposed Action to add aminopyralid, fluroxypyr, and rimsulfuron to the list of approved herbicide active ingredients for use on public lands.

The CD is an interactive version of the Record of Decision. A discussion of the BLM's decision is provided in Chapter 2 of the Record of Decision.

Viewing the Record of Decision on CD, Paper, or the Web Site

Whether you read the Record of Decision on CD, the BLM website, or as a hard copy, you will find that all formats contain the same information. However, the presentation on the interactive sites may differ slightly from what you see on the hard copy version.

Viewing the CD

In order to view the files on the CD, you will need the most recent version of Adobe® Reader®, or another software program that can read PDF files. You can download the free software by clicking on this link to connect to the Adobe® Web site: <https://get.adobe.com/reader/?promoid=KLXME>.

On the CD, you will find the following:

CD Label

Record of Decision, which includes the **Document Cover** and the **Record of Decision** (Chapters 1 through 6 and Appendices).

A **Dear Reader Letter** that was sent to individuals on the public mailing list, announcing the availability of the Record of Decision

Endangered Species Act **Consultation Letters** from the U.S. Fish and Wildlife Service (USFWS) and National Marine Fisheries Service (NMFS), which are also included in the main Record of Decision file as Appendix B. These include the **USFWS Concurrence Letter** and the **NMFS Biological Opinion**.

A useful method to help navigate in the documents is to click on the "Bookmarks" tab in Adobe® Reader® and then click on those sections of the document you would like to review.
